File Number:	RGB-TP-YH201808002	Version:	V1.1

Version: V1.0.0.30

- **Problem Solved**

1. The data would show over 100% during the updating process.

- **Optimization**

1. Click "ALL" button, the program will automatically choose the firmware for installed input board. Device will only updates the program what we need which improved the update process.
