

Release Notes

Firmware Version(s):

X1PROE V1.68

Release Date:

7 June, 2021

Applicable Models:

X1PROE

Changes/Fixes/Enhancements Included:

- *Repair:* Optimized the problem that the signal source indicator does not correspond to the signal source displayed on the LCD screen in splicing mode
- *Update:* Update the function of factory reset: clear the EEPROM first, and then perform the factory reset of the whole machine
